

Embracing Change

Matt Buscher, CEO
President LaptopsAnytime

Thank you for your support. We appreciate and value you.

I want to assure you that because of our close relationship to the Public Sector, Government and Industry that the LaptopsAnytime™ team continues to move forward in a safe and responsible manner. Part of our commitment is continuing to service and produce kiosks, meet customers' ever growing needs and taking care of suppliers and staff.

We recognize that providing safe and social distance learning along with supporting the work from home environment is paramount.

In these uncertain times, we can and must continue to support the infrastructure necessary to improve how we work, educate, communicate and interact in a sharing environment.

Your role in helping level the playing field and providing self-service access to laptops, portable power chargers and other accessories for your communities is invaluable.

Top on our "To-Do" list for 2020 includes proactively promoting "Let's Keep It Clean"™ campaign with posters and flyers to instruct end users on basic steps to stay safe including use of disinfectant wipes.

Together, we will overcome any obstacles that our community faces, step-by-step.

Stay safe,
Matt Buscher

LET'S KEEP IT CLEAN™

The need for "**Anytime Anywhere**" access to public resources has never been greater. Technology hubs at Public Libraries, Community Centers, Universities/Colleges, Healthcare, Government/Military and industry all rely upon internet and device access to meet the needs of their users.

NEW FLEXIBLE OPTIONS

For millions of people, Self-Service Kiosks serve as their "only" access point to **Take-It-Anywhere** technology. Let's meet the challenge of providing users (patrons or employees) the ability to work from home as needed.

THE NEW NORMAL

We're All In This Together

From Daunting to Do-Able

LaptopsAnytime™ has long been an innovator with one-of-a-kind award-winning Take-It-Anywhere Technology™ via Automated Laptop (and Portable 110V Power Charger) Dispensing Kiosk Systems.

In contrast to conventional desktop labs and manual circulation counters, LaptopsAnytime™ supports **empowering users and giving them control over their space anytime, anywhere.**

Portable 110V Power Chargers Perfect for BYOD

10+ Years, 3+ Mil Annual Automated Checkouts

LaptopsAnytime™ self-service auto-docking systems have enabled the Public Sector, Government and Industry to transform operations and maximize facility space while reducing cost and exceeding user expectations with respect to technology access. Kiosks can be configured for multiple laptops/devices (same model per row), up to 30 devices in 5 linear feet. Kiosks reset the devices back to pre-set state in-between uses.

LaptopsAnytime™ proprietary hardware/software ensures a level of full accountability. With our systems, you are **empowered**. Customize features on your own, on-the-fly with full reporting.

Doing More With Less

LaptopsAnytime™ recognizes when the dust settles that many public spaces, and the services offered, will need to be expanded with cutting-edge solutions. Self-service technology allows you and your facility to maximize overall space and streamline operations, accommodate greater user demand and add hours to your day.

Charger Kiosks Smartly Address the Needs of **Bring-Your-Own-Device** Users With No Additional Burden to Facility.

Up to 30 Laptops in 5 Feet

Perfect for public spaces, smartly deploy automated kiosks to meet the flexible needs of your institution without costly electrical wiring or expensive stationary furniture.
